PRICE \$1.50 PER YEAR

CHAUTAUQUA PROGRAM HAS MANY FEATURES

Of Much Interest from Lectures On War to Orchestra Music

The attractions to be presented during the coming Chautauqua week, August 9th to 16th, all the requirements of a well balanced war-time program. They offer both entertainment to relieve the tension of the mind, and information on war problems at home and abroad.

Dr. Salem G. Bland, eminent divine and lecturer of Winnipeg, special Dominion Delegate to the International Conference of Lecturers in Washington in April, will be one of the chief lecturers of the week. Dr. Bland's subject on the second afternoon will be "Canada at the Crossroads," one of the most constructive war time appeals upon the platform.

Another lecture of compelling interest is that given by J. C. Herbsman on the fifth night, "Carry On." Mr. Herbsman is one of the most forceful and eloquent lecturers on the platform. He is a man of resistless enthusiasm and energy who is devoting his great speaking ability to presenting the vital issues of the war and urging every individual to "carry on" to the extreme limit of his ability. On the fourth afternoon, Dr. Y. Minakuchi, Japanese scholar and orator, will deliver his great lecture, "War and the Anglo-Japanese Alliance." As the world is on tiptoe awaiting developments in the far East, this authoritative lecture is particularly timely.

One of the most notable lecture engagements of the year is that of Serg. Gibbons, of the Third Canadian Infantry, who will be at Chautauqua on the second night. This young Canadian tells one of the most thrilling tales of the war in his story of seven months spent in German prison camps.

Other lecturers to appear during the week will be Julius Caesar Nayphe, returning on popular demand in a new lecture on the Orient; Leila M. Blomfield, native of New Zealand, in a splendid lecture on this "land of model government" across the Pacific and Capt. Wood Briggs of the Texas National Guard, in a stirring patriotic message, "Playing the Game."

The musical program this year seems superior to that of any Chautauqua program in the past. The big musical feature of the week will be the coming of the Chicago Ladies Orchestra on the fourth day in two concerts. This will be supplemented by the appearance of Ethel Lee Buxton, American soprano, as soloist.

To the Warwick Quartet has been given the honor of opening the week's program with two concerts on the first day. On the second day Vincenzo Gullotta, prominent Italian violinist will delight all music lovers with two rare concerts. Assisting artists will

be Martha Cook, soprano, and Ruth Gregg-Gullotta, pianist and accompanist. Two other companies that will bring splendid and inspiring music to Chautauqua are the Hampton Court Singers, in two concerts on the third day, and the Glenn Wells Entertainers, in two programs of music and entertainment on the fifth day.

The closing night of the Chautauqua brings one of the biggest musical attractions of the week in the coming of the Kafir Boys Choir. Five smiling little natives of South Africa under the leadership of J. H. Balmer, F.R.G.S., and Miss Elsie Clarke of Rhodesia, constitute this unusual organization. For many years the Kafirs have been one of the most successful attractions on the Chautauqua platform. They will appear only on the closing night and will surely pack the tent to its outer edges.

An additional attraction for children and adults alike is the Mother Goose Festival, staged by the kiddies on the fifth night. This fantasy will be presented under the direction of the Story Lady, who will spend the entire week in town with the children. Any information regarding tickets, etc. may be obtained from Mr. G. M. Whicher or any of the committee.

CHAMPION RE-ORGANIZES U. F. A. LOCAL

Many Speakers Are In Favor of it, C. Davis Is Elected President.

A re-organization meeting of the local U. F. A. was held in Mark's Hall, Champion, last Saturday evening. About 25 men were present. Mr. F. Racher took charge of the meeting and Mr. J. N. Baubier acted as secretary pro-tem. The chairman after stating the object of the gathering and a few other remarks, declared the meeting open for discussion. Frank Smith, Clarence Davis, J. N. Baubier and H. R. Haddon spoke most highly of the U.F.A. organization and strongly urged that a local be formed in Champion. Following the discussion the chairman called for the election of officers which are as follows:

President, M. F. Racher, Vice-President, Mr. C. Davis; Secretary-Treasurer, Mr. R. F. Cool. The newly elected Secretary was authorized to attend a convention of Secretaries which was to be held in Calgary. The date of the next meeting will be announced later.

Don't forget the big dance in the I.O.O.F. hall on Friday, July 19th. Klebe's 6-piece orchestra will supply the music. Tickets \$1.00. No supper will be served in deference to food regulations.

CHAMPION NEWS

Champion Locals

Pte. Jas. Ashmore is home on brief furlough.

Dave Patterson and family of Lethbridge made a few days visit at the home of his brother P. M. Patterson of Champion.

W. Morrisson has left for Vancouver.

Miss Smith is visiting her sister Mrs. M. Moffat.

Rev. Haddon is back again on duty.

Mr. and Mrs. Pearce and daughter were visitors in Lethbridge over the weekend.

Dr. Talbot has resigned as local health officer. Mr. F. C. Alcock has been appointed in his stead.

Miss D. E. Halsner has just closed her school at Clear Lake and will spend the summer months with her sister Mrs. Brown.

Miss Cloushey has recently left for Portland, Oregon.

Miss Kate Roe has returned to her home in Gaston, Oregon.

Mr. and Mrs. Montgomery, of Woodstock, Ont., have just returned home after spending two weeks with their son, George.

CHAMPION RED CROSS NEWS

Mrs. J. Harper, President of the Red Cross, with her daughter, has left for Palouse, Wash., Mrs. Harper having been called away on account of her father's failing health. The President has left the work of the Red Cross in the hands of different workers. Everyone is asked to read the Red Cross News each week and get into line with the Red Cross drive Friday, July 12th. This session will be in charge of the country women at

the home of Mrs. Maynard, three miles East of town.

July 19th, will be in charge of the Ladies Aid in the church. Friday, July 26th in the church will be under the supervision of Mrs. Johnson. The following articles were shipped to headquarters Calgary last week: 2 pairs of pyjamas, 8 dressing gowns, 8 day shirts, 11 operating gowns, 8 bed socks, 7 face cloths, turkish towels, 24 ordinary towels, 15 knitted face cloths, 3 trench caps knitted, 7 pairs socks, 35 handkerchiefs, 26 trench caps, 2 nurses aprons, 2 personal property bags.

Don't forget the next sewing session in the church on Friday afternoon.

Yale School Picnic

Miss Margaret Patterson closed a very successful school term the last of the month. On the Friday a picnic was held at the river near Frank Johnson's place, Champion. It was largely attended by the people of the district. The children and grownups were liberally treated by the school. After lunch the program called for races, etc.

In the fat woman's race we congratulate Mrs. Tatter on winning first prize, 5c. Mrs. Patterson in the slim woman's race likewise won the handsome sum of 5c. Jim Groves won the young men's race. Mr. McDougall who won the married man's race has decided to give his prize money to the Red Cross. Every one fully enjoyed the game of three deep. Refreshments were again served and all went home pronouncing the picnic a great success.

Notes from Champion's Consolidated School, No. 40.

The work of the scholastic year was summed up in one brief hour last Friday, June 28th. Promptly at 11 o'clock the students assembled in the primary room to receive their grades and to hear their verdict "Well done" or "Try again." Fortunately the gracious "Well done" was the more frequent announcement. Mr. Edwards chairman of the school board presided. A short program consisting of music and recitations was given. Following the program each teacher read the promotion card of each of her pupils, handed it to Mr. Edwards, who commented on its merits. The following are the pupils and classes into which they are assigned for the full term:

Promoted from grade 1-B to Grade 1-A: Fred Galloway, Sylvia Edwards, Lena Cundal, Donald Bond, Geneva Bradbury, Aliene Graves, Eddie Wright, Edna Orr, Sarah Fleming, Ellen Galloway.

Promoted from Grade III to Grade IV: Rachael Smith, Joe Marless, Ida Stoddart, Beatrice Bradfield, Clayton Crane, Jean Alder, Lucille Fence, Dorothy Standish, Laura Schroeder, Howard Smith, Henry Wright.

Promoted from Grade IV to Grade V: Cecilia Sullivan, Morgan Smith, Glen Beyersdoff, Lorena Bonec, Jack Kwong, Emma Johnson, Laura Tobban, Lynel Milliken, Marvin Schroeder, Mabel Standish, Rena Schroeder.

Promoted from Grade V to VI: Ferne Bond, Kenneth Dolton, Bruce Pike, Hoy Maynard, Herschel Maynard Jack, Clifford Millikin, Harold Mercer, Delbert Pike, Bessie Brown, Edgar Anderson, Ethel Millikin.

Promoted from Grade VII to Grade VIII: Nettie Tobban, Willie Adams, Willie Mills, Charles Wright.

Grades VIII, IX and X will be announced later when returns are received from the department.

LOCAL ITEMS

Mr. W. O. Torgerson motored to Calgary to attend the Fair.

Mrs. Clappison was a visitor to High River on Monday of this week.

Are you a member of the Agricultural Society. If not, why not?

Mrs. T. B. LeBow returned from Wainwright on Tuesday evening.

Mrs. Arthur Mitchell spent the weekend in Calgary.

Don't forget the big dance in the Oddfellows hall on Friday, July 19th Klebe's 6-piece orchestra.

Born—To Mr. and Mrs. George Armstrong, Vulcan, on Sunday, July 7th, a daughter.

Mr. W. D. Thompson, route agent of the Dominion Express company, Calgary, was in town yesterday.

Mrs. A. G. Dickinson left on Monday for British Columbia, where she will visit with her sister.

Mr. C. E. Henry and party motored to Gleichen on Tuesday and attended the baseball game.

Mr. and Mrs. M. L. Gordon and Mr. and Mrs. Buck motored to Calgary on Thursday and attended the Fair.

Mr. W. F. Jennejohn motored to Calgary last week where he attended the fair.

Mrs. Robinson of Taber, who has been visiting Mr. and Mrs. Wm. Watt returned to her home on Tuesday last.

The C. B. Shimp land company today report the sale of the west half of 25-17-21, Hanson on Magnuson.

Mr. T. J. Butler has sold his saddlery and harness business to Mr. C.G. Collier of Lethbridge, who takes immediate possession.

Mr. and Mrs. Buck and Harold left on Monday evening for a vacation in the foothills with Dr. and Mrs. Beddingfield of High River.

The past week has been devoid to rain. On Wednesday night last it tried to rain but after a three minute trial it gave it up as a bad job.

The Rev. and Mrs. Haddon, of Champion, who have been on a visit to the coast, have returned during the past week.

Russell Robson and Johnnie Shields have left for Calgary where they will join the Engineer corps. They expect to go to Winnipeg shortly, and from there they will go further east.

Mrs. P. H. Beardsley of Vulcan was fortunate in winning a Gray Dort car in the Calgary Canadian circulation competition. It was the second prize for district No. 3. Mrs. Beardsley secured 9,327,620 votes.

Mrs. C. H. Nelson and her sister, Miss Pearl Sherman motored to Vulcan from Calgary last Saturday en route to Cardston. Mr. and Mrs. L. Sherman accompanied them from here.

The ladies of the Union Jack district have donated a quilt to the Red Cross Society. It will be raffled for, and 150, 25c tickets will be sold. The raffle will take place on Saturday, July 13th, at the store of Messrs. E. E. McIntosh, where the quilt is on view.

SERIOUS MOTOR ACCIDENT, SULLIVAN CREEK

Two Vulcan Men Badly Injured When Car Backs Down Grade.

On Monday last four Vulcan men met with a serious motor accident which almost terminated fatality for two of the men. Messrs. Maynard Dortch, Frank Kothlow, Sam Cole and Wm. Thompson were on their way home to Vulcan from Sullivan Creek where they had been on a fishing trip. When some miles west of High River the car was proceeding up grade when the engine stopped. The brakes were applied but refused to work and the car backed down the grade and over the side of a bridge at the bottom. Sam Cole was the most seriously hurt, getting very badly cut about the head and fracturing a rib. Wm. Thompson sustained two or three broken ribs. The other two men received nothing worse than a bad shaking. The car was wrecked.

One of the injured men was immediately taken back to High River and placed in the hospital by a farmer in the district where the accident occurred, and the other injured man was sent for by the officials at the hospital. A telephone message to the hospital this morning elicited the information that both men were progressing very nicely.

BLACKIE TO HOLD BIG RED CROSS DAY FRIDAY

Horse Races, Sports, Bucking Contests And Baseball Game for \$150

Friday of this week, July 12th, is to be a big day in the annals of Blackie, when a Red Cross sports day will be staged. \$300 is being offered in prizes and the committee in charge have done everything possible to make the day a huge success. All business houses in Blackie will be closed down for the day. The programme includes horse races, barrel race, bucking contest and athletic sports of all kinds. A big baseball game will be staged between Vulcan and Calgary Hustlers for a money prize of \$150. In the evening a dance will be held in the Auditorium and Butler's orchestra will supply the music. In going to Blackie on Friday no one can make a mistake, and there will doubtless be a large number of people from Vulcan there.

RAIN IS STILL NEEDED

The condition of the crops throughout this district is still that they are badly in need of rain, none having fallen during the past week. On Friday night there was a heavy storm over part of this south district, and at one time it looked as if we would get some moisture. The storm, however, seemed to split and part of it travelled over the Claresholm district, so reports state, while the other portion visited the Brant district. In the latter district the rainfall was very heavy while it lasted and afforded a good deal of moisture. All the following day deep pools of water lay on the roads and the ground received a soaking to a depth of over two inches. There is no report of hail having fallen. So far this year there has been practically no hail.

CHAUTAUQUA COM'TEE

A meeting of the business men of the town was held this morning to form committees for the coming Chautauqua, and the following officers and committeemen were elected:

Chairman, Mr. A. M. Trail; Secretary-Treasurer, Mr. G. M. Whicher; ticket committee, A. R. Schrag and E. M. Clark; Advertising committee, J. A. Lindsay and R. W. Glover; grounds committee, A. J. Flood, W.F. Jennejohn and Jno. Dewey.

R. C. SERVICE SUNDAY

Mass will be celebrated at the Oddfellows hall on Sunday, July 14th, at ten o'clock in the morning, the Rev. Fr. W. C. Smith of High River officiating.

Old English Songs at Chautauqua

The Hampton Court Singers present two programs on the third day which sound a note of originality. Elias Day, the well-known Chicago critic and coach, made a special trip to England and spent three months in a search for English motion songs new to the American platform. He found not only old motion songs, but tuneful folk songs dating back several centuries. Many of these have been cleverly woven into the programs of the Hampton Court Singers. These programs are presented in costume befitting the era in which the music was written. The members have splendid voices and present their offerings in an artistic and faultless manner. For several seasons few musical companies of the Chautauqua platform have been in greater demand throughout the country.

LET US ALL PULL TOGETHER

The Agricultural Fair will be upon us before we know where we are, so let us hope that all measures are being taken to make it a success. That depends on everybody. Not to the officials alone must we look for the best exhibition we have ever had; they have their contribution of time and labour to make, but that is useless unless the general public are sufficiently public spirited enough to do their quota by making exhibits. No doubt some of our farmer friends are visiting the Calgary and other large exhibitions are apt to belittle their own district by making comparisons which reflect no great credit on the latter. They should bear in mind however, that city exhibitions are the centre for a provincial display while the local exhibition is the centre for display of local stock and industry. And besides, the local exhibition, is the starting point for the exhibiting at large centres. If the people of a community who are in the position to do so cannot encourage their own locality toward a good fair, the least said about the matter the better, but we hope that there will be no lack of enthusiasm to make our exhibition as valuable as possible from every standpoint. Let us all pull together for the best exhibition we ever had.

PRESIDENT WILSON'S SPEECH

The speech of President Wilson on July 4th is a further statement of the United States war aims. It carries with it the firm conviction of ultimate victory for the Allied cause and the unflinching determination of the people of the United States to multiply energy and sacrifice until the victory determined upon is an accomplished fact. "There can be but one issue," says the President, "The settlement must be final. There can be no compromise. What we seek is the reign of law based on the consent of the governed and sustained by organization of opinion of mankind."

No other words could so fittingly apply to the cause. The great American republic has for its mainspring

such principles as are diametrically opposed to those enforced by the Hohenzollern rulers. On the one hand there is the democratic freedom of the western world with its rights for every man, while on the other there is the military autocracy of the German régime. America believes in the axiom that the state should serve the people, Germany believes that the people should serve the state. Between the two opinions lies the difference of the two theories, and the war, based on the conflicting of these theories is bound to carry for the victors not only a victory of arms but a victory of ideals also. Granted that Germany should win the war, the world would soon be under the heel of a military autocracy which would use it with a severity equal to that with which Germany is ruled; with an Allied victory, the doors of humanity will be thrown open to a greater individual and national freedom, conferring on the many the right to live justly and honestly and breathe God's fresh air, untroubled about ideas of sovereignty and world dominion so much nearer a realization of the act that nations, after all, are so many families who ought to live amicably together, settling their differences and misunderstandings by conference rather than by the sword. It is his ideal, the ideal of freedom for which we are fighting, and in the speech of President Wilson we find the thoughts of every one of us.

THE EMPIRE NEEDS THE WHEAT

The inevitable lessening of Alberta's crop as a result of the dry weather, brings us nearer to the actual need of food conservation than anything else could have done, for we are brought face to face with the actual shortage ourselves, only in a different sense; we look at the money value of the crop while Europe looks to the food value. To be honest we must admit that Europe needs the crop worse than we do, but not withstanding that fact we are able from our present experience to see more clearly how badly Europe does need the crop. Suppose we substitute for our idea of the value of the crop, the crop itself. Let us presume that we in Alberta needed the grain. If we can do this, we will get a better grasp on the necessities of Europe. Over there they are using every conceivable substitute for wheat and even such is being conserved with the greatest possible care. The rations are worked out in order that the least possible quantities may be made to go as far as ever possible, and in some parts of Europe it is impossible, to get wheat at any price. The state of conditions therefore is that the wheat to them is far more precious than the money is to us.

With thoughts such as this before us we ought to co-operate even more heartily than ever before with the conservation regulations of the country. We do not know how long it may be before we ourselves are brought down to a basis of strict rationing, but if

we can realize the fact that Alberta's crop is needed in Europe to a far greater extent than it is here, we can do more good than we have thought possible.

IS THE ALIEN RESPONSIBLE?

The recent sinking by the Germans of the hospital ship the Llandovery Castle, only tends to increase our abhorrence for the methods of our enemy who knows not right or wrong but only Deutschland über Alles. One peculiar point in connection with the matter, however, is that in giving his reasons for having torpedoed the ship the commander of the submarine stated that he was in receipt of information from Halifax, Canada, that she was carrying aviation officers. Such a statement may be all poppycock, issued merely in defence of the act, but there are also bare possibilities that there is some truth to the statement. Everybody knows that the alien in Canada has a better time of it than in any country at war with Germany and verification of this may be found in the Alberta coalfields where aliens are getting big money. It is therefore possible that the enemy is being supplied with valuable data by these aliens whom we are protecting with Canadian soldiers and money. That they should not always tell the truth in their "official" reports is not essential; a little fabrication supplies a good basis for action where there would otherwise be no possible excuse. The alien problem is still with us in greater degree than we imagine and stern measures against it are the only protection we have.

Something is wrong somewhere. Calgary fair has come and gone without there being a decent rain.

Seventeen parishes in Quebec are reported to have entirely ignored the national registration order.

President Wilson's July 4th speech will do much to convince the Germans of their error in thinking that America would not fight. More than that, Uncle Sam is going to see the business through.

Kerensky's appeal to the Allies for sympathetic treatment of the Russian people should find an echo everywhere. The Bolshevik has put Russia where she is and affords a good example of how Germany achieves her ends.

Farmers in the Taber district were last week forced by the police to sell grain that they were holding for seed purposes. No order to this effect had been issued and the farmers are in a sorry plight as their crops this year are going to be light. A little more co-operation between the officials would save trouble in future.

The official announcement has been made that the American price for 1918 wheat has been definitely fixed at \$2.40 per bushel.

Dr. Salem Bland, eminent preacher, will spend July and August in lecturing in the West in connection with the Ellison-White Dominion Chauvaux.

The flour mills at Lethbridge have commenced the grinding of barley flour and the people are eating barley bread for the first time. The Ellison mills were the first to make the new flour.

Arrangements have now been completed for the holding of the annual convention of the Retail Merchants Association of Alberta, which will take place at Edmonton, commencing Tuesday morning, July 9th.

Two Calgary soldiers, Pte. John Porter and Pte. Robert A. Steen, members of the Canadian Army Medical Corps, were among the casualties of the Canadian hospital ship Llandovery recently destroyed by the Germans.

The fire loss in Canada is the greatest per capita of any civilized country in the world. Two hundred people are burned to death, five hundred seriously injured, and \$22,000,000 damage done every year. The annual fire waste is \$2.73 for every man, woman and child.

Thomas Baker, a farmer south of the city of Lethbridge, was fatally injured at Coutts, on July 4th, when a Ford car, evidently driven by men intoxicated, ran at full speed into him as he was crossing the road in the dark. The drivers then turned the lights out and made a getaway. The injured man died the next day in the Coutts hospital.

Well, what is the matter with getting your supply of winter coal right now?

FARM LABOR

Vulcan Employment Agency
Phone 81

If you want to secure farm labor get in touch with us.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

THE sole head of a family, or any male over 18 years old, who was at the commencement of the present war and has since continued to be a British subject or a subject of an allied or neutral country, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at Dominion Lands Agency or Sub-Agency for District. Entry by proxy may be made on certain conditions. Duties—Six months residence upon and cultivation of land in each of three years.

In certain districts a homesteader may secure an adjoining quarter section as pre-emption. Price \$3.00 per acre. Resides six months in each of three years after earning homestead patent and cultivate 50 acres extra. May obtain pre-emption patent as soon as homestead patent on certain conditions.

A settler after obtaining homestead patent, if he cannot secure a pre-emption, may take a purchased homestead in certain districts. Price \$3.00 per acre. Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.00.

Holders of entries may count time of employment as farm labourer in Canada during 1918 as residence duties under certain conditions.

When Dominion Lands are advertised or posted for entry, returned soldiers who have served overseas and have been honorably discharged, receive one day priority in applying for entry at local Agents Office (but not Sub-Agency.) Discharge papers must be presented to Agent.

W. W. CORY, C. M. G. Deputy of the Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for—64388.

THE DAM IS COMPLETE

Water will be turned in at High River

The dam on the Little Bow river at the Carmangay power plant which went out in 1915 with the high floods in June has just been completed. The spillway of the new structure is much wider than the one in the old dam and should be big enough to carry off all the water in the flood periods. A new intake pipe has also been put in and in a few days the citizens of Carmangay will have filtered water once again.

Since the old dam went out we have been getting our water supply from a well sunk in the bed of the river into which the water filtered through a layer of gravel, and while the water has been fair it has been much better when filtered through the tank built for that purpose.

The water in the river has been very low of late and many were saying that it would dry up entirely, but thanks to the efforts of Jas. McNaughton, M. L. A., the danger from that source is past as he has been successful in getting the Minister of Public Works to have the water turned in at High River from the river at that point. A gang of men are now working diverting water from Highwood river to the Little Bow.

This same work was done some few years ago but for some unaccountable reason the gates were broken down and all the work done by the government had to be done over again. The water should reach here in about a week and once again the council will be able to rest easy knowing that we will have a good supply of water both for domestic use and fire protection. —Carmangay Sun.

CARAGANA BLISTER BEETLES

The beetles which have been working on the caragana hedges have been classified and the remedy prescribed. Robert McPherson sent a sample of the beetles to the Claresholm agricultural school and demonstration farm, and received the following reply:

Dear Sir:—We have received from you the insects which are called the "Caragana Blister Beetle." They were working on our hedges here and we destroyed them completely in about thirty six hours with the following solution made in the following proportions:

- 1 pound Paris green
- 1 pound lime
- 75 gallons water.

Sprinkle this on the hedge with a very fine sprinkling can, preferably on a sunshiny day.

W. J. Stephen, Principal.

—Nanton News.

The new military order which recently came into effect states that returned soldiers will be given an allowance of \$35 in order to purchase civilian clothing in place of \$8 during the summer and \$13 in the winter which up to the present has been the amount granted. They will, however, have to return their uniform.

Inspector Piper of the Provincial Police, Lethbridge, has been promoted to the rank of Assistant Superintendent of the Provincial Police and will take up his new duties at Edmonton next week.

COUNTERACT ADVANCE

PRICE OF WHITE CORN

While the Canada Food Board has no control of the prices of grain, they have taken steps to counteract the recent advance in the price of white corn. As the result of an apparent scarcity of the white product in the markets of the United States, the price is now considerably higher than the price of yellow milling and other grades of corn.

The food board is requesting all millers and manufacturers to make not more than 25 per cent. of white corn with at least 75 per cent. of good yellow milling, or good mixed corn. In this way it is expected that the price of flour can be reduced to the of government standard wheat flour, or even lower.

ROSES FOR IRRIGATIONISTS

In order to overwhelm the prairie delegates with flowers, and to further contribute to the success of the Western Canada Irrigation convention which will be held at Nelson, B. C., July 24, 25 and 26, the people of Nelson have postponed their annual flower show until the same time. The boundary country is famous for its flowers and fruits, and delegates to the convention are entertaining visions of roses for the eye and cherries for the appetite. It is said that both will be available in greatest profusion.

On July 6th the American Congress settled the controversy over the Government guarantee price of wheat by approving a price of \$2.40 as a substitute for \$2.50 as recommended by the senate. The senate accepted without debate the substitute previously adopted in the house and sent the measures to the President for his signature.

In addressing a meeting recently, Imperial chancellor of the exchequer, Bonar Law, said: "I see no immediate hope for peace. There is no road to it, I fear, except the rugged road through victory. It will be fatal to the world and to the Germans themselves if they are not taught the lesson that the war does not pay."

A tax bill for the sum of \$40,000 has been sent out to one Calgary property owner, and immediate payment of the account is demanded. This is the largest tax account ever sent out in the city of Calgary. There are other taxpayers in the city who also owe in the vicinity of this amount.

PEOPLE SHOULD PROTECT SUMMER HAWKS

As They are Useful In Exterminating Insects And Mice.

To most people hawks are hawks and, therefore, should be destroyed at the first opportunity. It may, however be interesting to know that many of these are among the most beneficial of birds.

The farmer has few better friends than the American Sparrow Hawk. This is one of the smallest and most beautiful hawks. Its food consists of insects and mice. The Marsh Hawk which is 19 to 22 inches long and when flying exhibits long, pointed wings and a long, narrow tail, is another friend. It usually flies low and beats about over the marshes, meadows, and open fields in search for mice, on which it almost wholly subsists. It seldom has the courage to visit the poultry yard and can be forgiven for the few young grouse it takes.

There are few species of the Rough-legs that should be protected. They are birds of the open, are often seen sailing high in the air, and are recognized by their rounded wings and broad spread tails. When hunting they come lower down, sailing and leisurely flapping over the meadows and fields. Their principal food is mice and either small rodents. Throughout the prairie provinces they are most persistent gopher hunters. They remain in Canada only during the gopher season, and it is estimated that a family of two adults and four young destroys about 350 gophers during one season.

The Sharp-shinned and Cooper's Hawks and the Goshawk, a slate grey bird, 22 inches long, have done more than any other bird to earn for the hawks a bad reputation. The first two subsist almost entirely on small birds, and the Goshawk is a confirmed chicken and grouse thief.

However, to kill friend and foe indiscriminately is the greatest stupidity, when a little trouble will enable one to distinguish between them. The Geological Survey, Ottawa, has published a well illustrated bulletin describing the hawks of the prairie provinces and making clear the distinctions between the different species.

Until one has learned to distinguish the beneficial species from the harmful the following rule for action can be given for the people of the southern prairie provinces: Protect the larger summer hawks, except those taken in the act of poultry-killing, and destroy the winter ones. In this way a few harmful hawks may escape and a few innocent ones suffer, but the results on the whole will be a great step in advance.

The Canadian railway commission has decided that it has no jurisdiction in the matter of the application of the United Farmers of Alberta for an order that the C. P. R. install a telephone at its station at Blackie, Alberta.

According to the reports received at the weekend from Rome, the Austrian losses in the recent unsuccessful offensive against Italy and during the Italian counter-offensive are estimated at between 200,000 and 250,000 including at least 50,000 killed.

VULCAN LEADS CALGARY A MERRY DANCE

Local Hitters Just Do What They Like With City Ball Players

Saturday's baseball game between Vulcan and a team, said to be picked from Calgary, was the worst seen here this season. For the first innings when neither side scored it looked as if the crowd might see some good ball and in the second inning when Vulcan got away for one run things were not too bad. But in the third after the visitors had been dismissed for a goose egg the Vulcan boys did just as they liked and walloped the pill all over the place, adding ten more runs to their score. After that the bottom dropped out of the game. Vulcan boys scored or not as the fancy took them and just played rings round their opponents. Calgary boys were slack in the field. Countless errors are to their credit and although they tried three pitchers the game never became interesting. The final score was 27-12 in favor of Vulcan. The line-up of the team was: Vulcan—Gray lf, Godfrey 3b, C. Starr ss, Duckett c, Lapp 2b, R. Starr 1b, Gibson cf, Schroeder rf, Brown p.

Calgary—Watts 3b, Turner lf, Walham 2b, Gillespie 1b, Carvel c, Huffman ss, Purvis cf, David rf, Bergson p.

Score by innings:—
Calgary 0 0 0 5 0 0 7-12
Vulcan 0 1 10 6 15 22 x-27

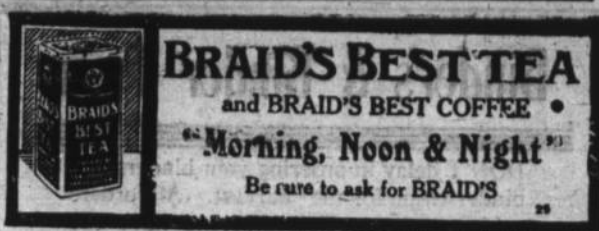

The new Red Triangle hut at the Sarcee military camp was used and occupied for the first time on Sunday morning of last week. The formal and official opening will take place some time this week.

Winnipeg municipal officials have refused to grant a license for the Chautauqua entertainments in the city this year, classing the enterprise with circuses, carnivals and other amusement enterprises, all of which have been banned in the Peg for this year.

In the district court at Wetaskiwin, two hundred dollars damage and costs were awarded to Charles H. Swanson, against Deputy Returning Officer Barnard, who refused to allow him to vote at the last federal election. Swanson, who was born in Sweden, produced a copy of his naturalization papers, but the returning officer demanded the original document.

The churches at Nanton have been for some time preparing for an evangelistic campaign, which is now under way, under the direction of Evangelist Frank A. Miller, of Chicago, who has for the past eleven weeks been working with marked success in Calgary.

Orders have been issued by the Provincial Attorney General to the government liquor vendors not to supply liquor to druggists who are reasonably suspected of using it for other than medicinal purposes. A case of such kind is reported to have been found in Calgary, and others are reported from elsewhere. It is intended to shut down on further sales to such dealers, putting the onus of proof on them to show themselves entitled to purchase from the vendors.

Two Questions

With so many low-priced so-called anti-skids obtainable, would that great host of motorists pay more for Dunlop "Traction" Tread if they could get its merits elsewhere?

Also, would that other large list of car owners buy — "SPECIAL" — if tires which somewhat resemble it in appearance resembled it in efficiency?

"SPECIAL" DUNLOP TRACTION

SHORTAGE OF HAY IN SOUTH OF PROVINCE

Causes Department Agriculture To Take Measures To Feed Stock

District agents of the provincial department of agriculture are to take immediate steps to ascertain the conditions in regard to hay shortage which will exist in some portions of the province and as to the possibilities of supplying this shortage in other districts.

The matter was discussed at a meeting which was held Wednesday night and though the condition is serious enough in some parts of the province, the feeling of the meeting was that there was no cause for any wild rush to sell cattle. The government will ascertain the farmers and stockmen who will require feed for their stock; steps will be taken to handle the situation so that there will not be any loss emergency coping with. Those who want to cut their own hay will be informed where there are available to the stockmen and the present hay lands.

At the first meeting Dr. Rutherford said the great danger would be a stampede to sell cattle, this should be prevented at all cost and every effort made to allay excitement which had already started in some districts. If the stockmen and farmers would keep cool they would be brought through. There had been every encouragement given to cattle raising and a generous response and any tendency to alarm would be allayed by a knowledge that the provincial government was taking the matter in hand. There was no time when the live stock industry was as important as it is now and no time when the prospects were as good.

At the meeting it was suggested that the policy would be to find out where the hay could be cut in the central and northern parts of the province and also where there was good feed which was too far from the railway to be hauled economically, but which would be available for stock which could be taken by rail and trailed out to the range. On the other hand the districts where feed is scarce will be canvassed and a list made of the requirements of the farmers and stockmen. Those who want hay shipped down to them will be listed and those who are desirous of having their stock moved to range away from the railways will also be enumerated.

Hon. Duncan Marshall announces that A. E. Meyer, superintendent of the schools of agriculture, who has charge of the production campaign will direct this canvass, utilizing the district officers for the purpose of securing information. At the preliminary meeting which was presided over by Deputy Minister H. A. Craig, there was a great deal of practical discussion regarding the probable cost of hay and how the necessary help would be secured to cut it. Freight rates were also discussed and all phases of the matter gone into. No suggestion is made regarding the cost of the hay which will be put up, but it will be brought down to the lowest possible cost.

Livestock Commissioner Stevens referred to several districts where there was good feed, but which owing to the state of the ground could not be cut, but which would make excellent range for cattle. Mr. Craig referred to the Indian reserves and the possibilities of a large cut on some of them, and that applications will be made to the Indian department.

This will be all very welcome news to a number of the cattle and sheep breeders of the province who are wondering what the outcome of the feed shortage is to be. Many of the larger men are making arrangements on their own account for hay supplies in the north and others will move their stock to where there is range. It is the smaller holder who would have been in the worst position if steps had not been taken to see that the feed was distributed.—Market Examiner.

THEY SEPARATE

Daughters of The Empire Leave National Council of Women

It has been announced by the national president, Mrs. A. E. Gooderham that the Imperial Order Daughters of the Empire had severed its affiliations with the National Council of Women, the decision having been made at a meeting of the executive Wednesday. The matter came up at the late annual meeting of the I.O.D.E., when a resolution was brought in which declared that unless the National Council of Women officially severed with Germany Austria and Bulgaria, that the I.O.D.E. of Canada would sever affiliation with the council.

GENERAL NEWS

Record of Events Throughout the Province and Elsewhere

Calgary bank clearings for the month of June were \$23, 229,348.

The attendance at the Calgary Exhibition this year was 115,665, compared with 110,028 in 1917.

Mrs. Davis, wife of Fred Davis, M. L.A., of Gleichen, Alberta, died suddenly of heart disease, at Mitchell, Ontario, on the morning of July 4th.

Calgary painters and decorators are out on strike. Their demand is for an increase in wages from 55c to 70c an hour. The employers have offered to compromise at 62½ cents an hour.

Cardston had a destructive fire on the night of Dominion Day, the destruction of livery barn, race horse, garage and automobiles causing a loss of more than \$15,000.

Albert Carrothers, an Edmonton broker, was arrested in New York, on July 2, on the charge of obtaining \$7,300 by false pretences from a branch of the Union Bank of Canada.

So far this year licenses have been taken out for 1,767 dogs in Calgary, and the revenue from this source amounted to \$3,888. The horse population of the city is 1,005.

The Teacher's Alliance of Alberta is now an incorporated institution. The purpose of the organization is a firmer establishment of the teaching profession in the province. The first president is George D. Misner.

C. Squires, for selling a bottle of Florida water to an Indian at Calgary, has been sentenced to a term of five months in jail, with an additional fine of \$100 and costs or four more months in jail.

Several convictions have already been made under the Fisheries Act, those prosecuted being charged with catching fish under nine inches long and failing to throw them back into the river again. The fisheries department is doing its utmost to prevent fishermen from taking the small fish out of the river, and the fines were imposed as a warning to obey the Fisheries Act to the letter.

Winter Coal

A word to the wise is sufficient. Place your orders for your winter's supply of GALT COAL now. By delay you risk a shortage and a higher price.

Claude Terwilliger, Roy Ferguson, Mgr. Vulcan, Alberta.

HAVE YOU A GOOD HOME?

Hon. Duncan Marshall in a recent speech at Medicine Hat said :

"There are only one or two things in a mans lifetime that are worth while. One is to build a good home and surround it with every comfort."

LITTLE BOW RED
CROSS NOTES

About \$70 was realized from the social and concert held at the Boyne school on June 28th, by the Little Bow branch of the Canadian Red Cross Society. Supper was served from gaily decked autos representing the United States, Great Britain, France, Belgium, Canada, and even far away Japan kept a little lady in silken kimono and butterfly sash very busy among the pies and cakes. The Society wish to thank those from Vulcan and Champion who contributed to the programme, also Messrs. Corrigan and Zahnd for their efficient assistance in many ways.

The secretary is desirous of acknowledging the sum of \$10, donated to the society by Mrs. Wannop.

A barn dance in the new barn at Mr. John Archibald, nine miles west of Champion will be given in aid of the Little Bow Red Cross on the evening of Friday, July 12th. A cordial invitation is extended to all.

LOCAL ITEMS

Mr. C. B. Shimp has left for the foothills on a fishing trip.

Mr. J. J. Duffield of High River, was in town yesterday.

The Misses Retta and Mary McDonald left on July 1st for Idaho where they will visit this summer.

Miss Cassie Davis and Miss Huffman are leaving the latter part of this week for Banff, where they will spend their vacation.

Mrs. L. W. Laws returned from Rochester, Minn., on July 1st. On her way home she visited her brother in North Dakota.

Vulcan baseball team visited Gleichen yesterday and came out at the winning end with a score of 9-0. Buck Lapp played for the Gleichen team.

The Vulcan gun club recently attended the fourteenth annual tournament of the Alberta Provincial Trap Shooting Association, held at Calgary, and made a very creditable showing. They were in on the money prizes on each event. Messrs. Mutt Shimp and McPherson made 19 out of 20 and George Pettman made 20 out of 20.

On Monday night the entire town was awakened from its beauty sleep by a monster charivari staged for the benefit of Mr. and Mrs. J. C. McDonald, who had that day returned from Banff. Having had the satisfaction of drawing Mac from his bed the crowd besieged the home of Mr. and Mrs. W. D. Allen where they were equally successful. Apart from the satisfaction the participants got out of the performance, the rest of the town lay in bed swearing itself to sleep, wondering where on earth the fun of the fun of the thing came in.

On Saturday afternoon following the baseball game three exciting races a relay and two half mile flat races were pulled off on the track. In the relay Clarence Davis beat Jimmie Dew, and in the half mile races Ole Hanson beat J. B. Smith and Davis beat Johnson. There was also a far men's race between Ole Hanson and a man from Pendleton, Ore., for \$5.00. Ole Hanson won. This last race was even funnier than the ball game.

The canvass of the ladies of the town to get signatories for a petition asking for electric light service or Tuesday mornings for ironing purposes is of no avail. Mr. Mutt of the electric company told the canvassers that he could not possibly supply the service without losing money.

FOR SALE—An acre lot on Appolo Street, price \$350, terms cash. Apply Mrs. E. Irving, Vulcan. 45-2f.

AT BANFF—The Homestead Hotel opened on the 1st of May, 1918. This popular home, with its big green lawns, is prepared to give better service than ever before, 1917 being a very successful year. It is a logical home for car parties. Rates about the same as last year. For further information phone 74, or write John Locke, proprietor, Banff.

The Value of Experience

Is in its dependability. The better a job is done the more experience there is behind it. Particularly does this apply to the realm of Printing, which is like a country with a constant stream of new ideas; like emigrants flocking to it. They must all be used and assimilated into the work and made to produce. When you place an order for printing what do you get?

Just Paper and Ink, or
Paper and Ink *plus* Experience

THE PRINTER'S
POWER

PRINTING has not yet come to its own. It is young yet, and it is democratic. It has yet to make its great record. Sweeping into its grasp are the arts of the artist, the photographer, the designer, the colorist, the paper-maker, the engraver and the book binder, and laying tribute on all the other arts, it is most directly influential in moulding the thought of a nation.

Henry Turner Bailey

The Advocate Experience

Is used with every job turned out, and the result is that we have hundreds of customers that are satisfied, and if they were not they would get their work done elsewhere, as men are not placing orders as a matter of charity these days. They demand the best for the keenest price, and they place their order where that demand can be fulfilled. That is why the Advocate does the work.

If you have work let us give you an estimate, and no matter what the work is; we will do it and we will do it well.
